The objects of the Organization are:

- a) to provide relief to the poor, the distressed and the underprivileged throughout the developing areas of the world by means of furthering the economic development of the poor and promoting self-reliance and social justice;
- b) to further the advancement of education as to principles of management and the successful operation of enterprise throughout the developing areas of the world;

2. COVID-19

The recent outbreak of the Coronavirus Disease 2019 (“COVID-19”) has spread across the globe and is impacting worldwide economic activity. This global pandemic poses the risk that we or our donors, members, employees, suppliers, and other partners may be unable to conduct regular business activities for an indefinite period of time. While it is not possible at this time to estimate the impact that COVID-19 could have on the organization, the continued spread of COVID-19 and the measures taken by the federal, provincial and municipal governments to contain its impact could adversely impact the organization, financial condition or results of operations. The extent to which the COVID-19 outbreak impacts the results will depend on future developments that are highly uncertain and cannot be predicted, including new information that may emerge concerning the spread of the virus and government actions.

3. SIGNIFICANT ACCOUNTING POLICIES

These financial statements are prepared in accordance with Canadian accounting standards for not-for-profit organizations. The significant policies are detailed as follows:

FINANCIAL INSTRUMENTS*Measurement of financial instruments*

The Organization initially measures its financial assets and financial liabilities at fair value adjusted by, in the case of a financial instrument that will not be measured subsequently at fair value, the amount of transaction costs directly attributable to the instrument. Amounts due to and from related parties are measured at the exchange amount, being the amount agreed upon by the related parties.

The Organization subsequently measures its financial assets and financial liabilities at amortized cost.

Financial assets measured at amortized cost include cash.

Financial liabilities measured at amortized cost include accounts payable.

Impairment

Financial assets measured at cost or amortized cost are tested for impairment when there are indicators of possible impairment. When a significant adverse change has occurred during the period in the expected timing or amount of future cash flows from the financial asset or group of assets, a write-down is recognized in excess of revenue over expenditures. The write down reflects the difference between the carrying amount and the higher of:

- ◆ the present value of the cash flows expected to be generated by the asset or group of assets;
- ◆ the amount that could be realized by selling the assets or group of assets;
- ◆ the net realizable value of any collateral held to secure repayment of the assets or group of assets.

When the events occurring after the impairment confirm that a reversal is necessary, the reversal is recognized in excess of revenue over expenditures up to the amount of the previously recognized impairment.

REVENUE RECOGNITION

Administrative fees are recognized as revenue when earned in accordance with the accrual basis of accounting.

Exchange gains and losses arising on the translation of the accounts are included in income. Non-monetary assets and liabilities are translated at historical rates of exchange.
